Annual General Meeting Booklet

Bicycle Newfoundland & Labrador

AGENDA

Bicycle Newfoundland & Labrador

Annual General Meeting

Date: Saturday, April 10, 2021
Location: Distance
Time: 10AM-12Noon

1) Call to Order/Welcome

2) Review of AGM Minutes 2020

3) Reports
    - Annual Report by President
    - Year End Financial Report (Treasurer)

4) Partners and Sponsors

5) Analysis of 2020 BNL Membership

6) Covid-19

7) BNL Membership Fees

8) Gallagher's Insurance

9) Newfoundland and Labrador Summer Games

10) Canada Summer Games

11) Nominations Report & Election of Directors

12) Discussion

13) Closing Comments

14) Adjournment

MINUTES ANNUAL GENERAL MEETING

Date: Saturday, April 4, 2020
Location: Meeting by distance
Time: 10AM-12Noon

Registration of Attendees:

Kevin Flynn	Laura Flynn	Mel Fitzgerald
Don Boyles	Scott Andrews	Ryan Butt
Ryan Green	Ryan Penny	Glen Smith
Chris Boyce	Andrew May	Andy Poole
Dave Morgan	Joshua Veber	Mark Pinhorn
Julian Kennedy	Mick Cutler	Jenn Wicks
John Hancock		

1. Call to Order/Welcome

The meeting was called to order at 1010hrs. The President welcomed everyone. Roll call was taken.

2. Review of AGM Minutes 2019.

The minutes were previously made available on the BNL website and via email to members. Kevin reminded everyone that the minutes were previously approved by the BNL Executive Committee as per the Constitution and Bylaws. There were no questions or comments about the minutes.

3. Reports

<u>Annual Report by President</u>
The President gave an overview of the annual report which is available on the BNL website. Highlights from the report included:

- Another year of tremendous growth in BNL membership, from 458 in 2018 to 658 in 2019.
- A thank you to:
    - BNL sponsors:
        - Leon's Furniture (silver level sponsor)
        - Robert Conway of Co-op Insurance
        - Karl Smith
        - NL Dizziness and Balance Center (Kim Furlong)
    - BNL Partners such as Manna's Bakery, the various cycling shops that offer discounts to BNL members across the province and Modo Yoga St. John's.

- Various volunteers throughout the organization, particularly BNL Board members, whose dedicated work has led to the continued growth of the organization.

Year End Financial Report
Don gave a detailed overview of the year-end financial report which will be posted on the BNL website. Insurance and Cycling Canada Affiliation fees are paid up to date for 2019. However, we have not yet received invoices for these bills for 2020 and we are unsure of the total owing for the upcoming year.

Questions arising from the report are as follows:

Question: Were the Snowdog donations made by email or through GoFundMe?
Response: They were separate as reported.

Question: Can donations still be made via email transfer or just though GoFundMe?
Response: Email transfers can still be done. We (BNL) get 100% of donations made via email transfers. With GoFundMe, there's a small fee so we don't capture all of the money. Also, it takes longer to get the GoFundMe donations.

4. Covid-19

Kevin gave an overview of the Cycling Canada statement on Covid-19.

5. Newfoundland and Labrador Summer Games

Andy gave an update on the Newfoundland and Labrador Summer Games and the Canada Games as follows:

Newfoundland and Labrador Summer Games
The Newfoundland and Labrador Summer Games are postponed and we have no word on when or if it will be rescheduled.
Andy and John are working to get set up on the administrative side of things. One challenge is coaching for the regions. Finding coaches is a major priority. Western, Central and Eastern regions potentially have persons interested in coaching. No coaches have come forward from the other regions yet.
Anyone interested in coaching is asked to notify Andy.

2025 Canada Games
Due to Covid-19 we are losing prime prep time.
A memo was previously sent out to athletes and we had been looking at selecting a race team. A camp was tentatively scheduled for first week in July. Coaches will review the possibility of a late summer/early fall camp instead. John and Mick are

doing coaching courses now. We would also need to bring a coach in from New Brunswick for a coaching workshop.
Will try to connect with athletes and do online training.
John is head coach for mountain biking. Mick is head coach for road biking.
Andy is manager. Jenn is helping out.
We really need a team manager for the road team. We need to put a call out publicly for this.
We also need a female to travel with the road team next summer.

Question: If the games are delayed by a year what is the impact on eligibility (with respect to age)?
Response: No direction on that yet. Decision in the hands of government, not SportNL.

6. Proposed Amendments to Constitution & Bylaws

The President gave a brief overview of the proposed amendments to the BNL Constitution & Bylaws which had previously been distributed to the membership.
Moved by Laura Flynn and seconded by Glen Smith that the proposed changes be adopted as distributed. Majority voted in favour. MOTION CARRIED.

7. Nominations Report & Election of Directors

The following Board Directors resigned during the past year:

- Christine Elliott, Director of Women's Cycling
- Ted Correa, Director of Coaching and
- Scott Andrews, Director of Non-Competitive Cycling

The President thanked them for their many contributions to Bicycle Newfoundland and Labrador during their respective terms of office and then turned the elections over to the Elections Officer, Chris Boyce.

Chris reported that we had a call for nominations for the following Board positions:

- President
- Director of Women's Cycling
- Director of Non-Competitive Cycling
- Director of Coaching
- Director of Para-Cycling

We received nominations for three of the positions as follows:

- President – Kevin Flynn again
- Director of Women's Cycling – Jenn Wicks
- Director of Para-Cycling – Mel Fitzgerald

As there was only one nominee for each of these positions, Chris declared the candidates accepted by acclamation. He then welcomed Kevin to the board as President again as well as new board members Jenn Wicks and Mel Fitzgerald.

No candidates have come forward for two of the vacant board positions (Director of Coaching and Director of Non-Competitive Cycling).

Chris asked for nominations from the floor for those positions – None came forward

BNL is actively seeking candidates for those positions and encourages anyone who might be interested to email admin@bicyclenl.com for further information or contact the President directly.

8. Discussion

Question: Considering the postponement in BNL events due to Covid-19, are we anticipating a decrease in BNL membership?
Response: We had about 650 members last year. To date we have about 155 members. Most of these members joined as a result of events which took place in the past couple of months. We generate memberships through events so we can anticipate that BNL membership will be decrease this year.

Covid-19 Impact on Fitness
A lot of people losing fitness because of Covid-19 restrictions. Need to come up with ideas as to how to maintain fitness following advice of government – e.g. can enter races on Swift.
Jenn mentioned that she has started a Zwift series with 50 members in a facebook group. Participants can do the rides at their own time. Tabulating on spreadsheet. Need someone to help out. Can give prizes at end of series. Could charge a small fee to cover cost of prizes.

Cycling Stores
These are open for curbside business. Show rooms not open. Selling things online.

9. Closing Comments

Kevin thanked everyone for participating in the meeting today and for their hard work overall in promoting Bicycle Newfoundland and Labrador.

10. Adjournment

Kevin moved that the meeting adjourn. Laura seconded the motion. The meeting adjourned at 11:20hrs.

Approved by BNL Executive April 30, 2020

Bicycle Newfoundland and Labrador

Annual Report from President - Kevin Flynn

April 1, 2020 - March 31, 2021

Without a doubt, 2020 has been a very challenging year for the organization. The advent of the Covid-19 pandemic has just about called a halt to most of our events in the province and resulted in a severe membership decline. In response to the pandemic, Bicycle Newfoundland and Labrador (BNL) worked with Cycling Canada and SportNL to develop a "Return to Play Cycling Plan" click here which is also available on the BNL website.

Despite the pandemic, however, cycling for recreation and transportation purposes has grown phenomenally in 2020, within the province and on a global perspective. The bicycle industry has been and will be challenged to keep up with the rising demand.

MEMBERSHIP

I would like to acknowledge BNL members for having purchased a general membership, provincial racing membership or UCI licence in 2020. This substantial decrease in numbers was not surprising considering that most of the regularly scheduled cycling events & group rides were cancelled due to the Covid-19 pandemic.

BOARD OF DIRECTORS

I would like to thank the Board of Directors and the Regional Representatives for their commitment and hard work towards promoting bicycling and the goals of BNL in the province. Thank you as well to the many other volunteers who assisted with the activities and events of the organization.

Board of Directors & Regional Representatives (2020)

Directors:

- President - Kevin Flynn
- Director (Treasurer) - Don Boyles
- Director (Secretary) - Laura Flynn
- Director (Marketing/Communications) – Ryan Green
- Director (Coaching) – John Hancock
- Director (Non-Competitive Cycling) – Julian Kennedy
- Director (Competitive Cycling) – Ryan Penney
- Director (Women's Cycling) – Jenn Wicks
- Director (Youth Cycling) - Andy Poole
- Director (Para-Cycling) – Mel Fitzgerald

Regional Representatives:

- Eastern Rep – Chris Boyce
- Central Rep – Mark Pinhorn
- Western Rep – Andrew May
- Labrador Rep - Eric Skoglund

GOVERNANCE and STRATEGIC PLANNING

The Board continues to work towards achieving its goals as outlined in the three-year strategic Plan spanning 2018 to 2020. Due to pandemic considerations and a changeover in leadership, the Board decided to extend the review date for the plan for another year (to 2021).

The current strategic plan includes a vision and mission statement, a mandate and the following five strategic directions for the organization:

1. Education and Awareness
2. Organizational Governance
3. Marketing and Communications
4. Financial Sustainability
5. Partnership Development

CHANGE IN FEE STRUCTURE

Despite a substantial increase in insurance fees over the past few years, BNL is pleased to be able to maintain status quo with respect to membership fees again this year (see breakdown below). BNL membership fees continue to be low compared to other provincial bicycle associations across the country. Please note that we made slight changes to some of the membership category names this year in order to be consistent with the rest of Canada.

BNL Membership Fees - 2021	
GENERAL MEMBERSHIP	
Age Category	**Fee**
Under 19 years of age	$30
19+ years of age	$40
Provincial RACING MEMBERSHIP	
Age Category	**Fee**
Provincial under 17 years of age	$35
Provincial 17+ years of age	$65
UCI RACE LICENCE	

Age Category	Fee
UCI under 17 years of age	$45
UCI 17+ years of age	$65

INSURANCE STRUCTURE

BNL has partnered again this year with several other provinces and territories to obtain insurance services. Gallagher Insurance is the 2021 insurance provider for provincial and territorial members of the Cycling Provincial Collective Insurance Program. Visit Insurance Plan for further information about the program.

DIGITAL LICENCE

Just a reminder that in 2020 digital licences were introduced in place of plastic cards. Members are required to download their digital licence and have it available as needed.

SAFETY VIDEOS

In 2020 BNL teamed up with the Department of Children Seniors and Social Development and Mad Lad Marketing to produce a series of ten safety videos Benefits of Cycling – Bicycle Safety Campaign – Bicycle Newfoundland and Labrador (bicyclenl.com) which were subsequently widely viewed on a variety of social media platforms.

NEW POLICIES

BNL, through the Board of Directors and committee members, reviewed and updated the Conflict of Interest policy this past year. A Privacy Policy is also in development.

CANADA GAMES

The Canada Games Coaching Team consists of John Hancock (Director of Coaching), Mick Cutler, Andy Poole, Ryan Penny, Ryan Butt, Daan Goossens and Olivia Smith. Although the 2021 Canada Games have been postponed due to COVID-19, these coaches continue to do a wonderful job in preparing the athletes for the Games.

Coaches are continuing their individual training and certification programs and athlete development is ongoing. The plan is to hold another successful athlete identification camp in Eastport in the summer of 2021 and to work with coaches in the Atlantic provinces and Cycling Canada to arrange competitive training events for the athletes.

NL SUMMER GAMES

For the first time ever, the sport of cycling (mountain and road) will be part of the NL Summer Games. The 2020 NL Games were postponed due to COVID-19 and a new

date has yet to be determined. In addition, the sport of Para-cycling will be a demonstration sport in the NL Summer Games. **BNL is still looking to identify volunteer coaches and managers for these sports in the eight regions throughout the province. If you are interested, please contact BNL at** admin@bicylcenl.com.

PARTNERS & SPONSORS

Partners

BNL has many partnership relationships. For example, it is a member of Cycling Canada, the national governing body of cycling racing in Canada. It is also a member of Canada Bikes, a not-for-profit corporation which has a mandate to make cycling attractive, safe and accessible across the country.

Other partnerships include the Newfoundland T'Railway Council, a non-profit organization dedicated to the development of a recreational trail across the island using the former Canadian National Railway line. BNL partnered with the provincial Department of Children, Seniors and Social Development in the development of ten videos to promote safe cycling throughout the province of NL.

BNL continues to partner with the NL-Visually Impaired Sports and Recreation Association (NL-VISRA), the Canadian Council of the Blind (CCB), Recreation NL and ParaSport NL to offer bicycle riding sessions for the physically impaired. BNL partners in the Cycle for Sight annual bicycle ride to raise money for vision education and research through the nonprofit organization Fighting Blindness Canada.

Various cycling stores in Newfoundland and Labrador continue to offer a 10% discount on non-sale bicycle accessories such as clothing and other items at the discretion of the shop. The discount is available to current members of BNL. Moda Yoga St. John's also offers a 15% discount on membership as well as 5 or 10-class cards to current BNL members.

Sponsors

BNL would like to extend a sincere thank you to the following sponsors for their generous support which allows us to maintain existing programs, offer new ones and support our athlete teams:

- Robert Conway, Co-operators agent
- NL Balance and Dizziness Centre
- Karl Smith

To find out more about our sponsorship program, go to http://bicyclenl.com/partners/

VOLUNTEER APPRECIATION

The Annual Volunteer Appreciation Event was postponed in 2020 because of COVID-19. Hopefully we will be able to host a thank you event for volunteers, sponsors, partners and board members in 2021.

ACTIVITIES

Outlined below are detailed reports from various BNL board directors, regional representatives and/or event organizers concerning cycling events and initiatives for 2020 and early 2021:

Competitive Cycling (Connor Flannagan, Event Organizer)

St. John's Enduro Series (SJES) 2020

The St. John's Enduro Series (SJES) hosted two mountain bike races in 2020: August 30th in Corner Brook/Massey Drive and September 27th in St. John's (East White Hills). These two events were hosted successfully despite the challenges of COVID-19, with safety regulations developed in conjunction with the Department of Health and Community Services. The mission of the series is to encourage riders of all ages and skill levels to come out for an enjoyable day on the trails, while also allowing the most competitive riders to battle it out and prove who is the fastest in the province.

The format of enduro racing is perfect for bringing the mountain bike community together, since the majority of the race day is spent riding the untimed transfer stages together as a group. Last year's series brought mountain bikers together from the east and west coasts of Newfoundland, and both events saw local riders come out on top with the fastest time of the day. The SJES continued its steady growth in 2020, and saw 75-80 participants per race (plus a waitlist). Approximately half of these riders are under-19, which is the fastest growing age group for the sport. There are hundreds of people who contributed to making these events a success, and the SJES would like to thank all riders, volunteers, sponsors, first aid providers, landowners, photographers, and spectators.

Non-competitive Cycling (Julian Kennedy, Board Director & Richard Churchill, Event Organizer)

Due to the impact of the pandemic public health measures, many non-competitive activities were curtailed. Prior to the COVID-19 lockdown, BNL was able to sponsor two Fatbike events, one in Pippy Park and the other one at White Hills in Clarenville.

The Pippy Park event took place on February 16, 2020 with 70 participants. Following the ride, participants were treated to a personalized pizza supplied by Manna's Bakery and beverage. Morning Check-in was organized by The Outfitters.

The 2021 Fat Bike Festival was scheduled to take place but the timing of the COVID surge was against us and the event had to be cancelled. None of the usual formal non-competitive events, such as the Bonrexton Gran Fondo or the Trepassey Posse ride, have been held this year, and plans to get formalized group rides up and running again are on hold.

Occasional cycling advocacy efforts have been made, including participation in radio shows and letters to City Council. BNL has been engaged in promoting the interests of cyclists in public consultation and in on line and media discussion around the need for multi-use trails in the city, and specifically about the planned Kelly's Brook development.

The 2020 Tour de Summit was another very successful winter cycling event in Clarenville. This was the 2nd running of this event. In 2019 we had 48 participants. In 2020 we had 38 participants, so we were just 10 less than the year before. We were ready to host again for 2021, however COVID-19 and our Province entering Alert Level 5 ended this as an option, which was quite unfortunate. Depending on how the winter continues, and if we see the possibility of being able to run an event such as this within CMO Public Health guidelines - there is still a window of possibility that we may be able to offer this as we often retain snow on our trails well into April. Indeed - some seasons we can still fatbike and ski into May. We will have to wait and see if that is possible - even if it could be done as a regional event for the Eastern Health region.

Women's Cycling (Jenn Wicks, Board Director)

Despite a pandemic, Women's Cycling, under the direction of Jenn Wicks, current board director for the program, has been very busy as indicated below:

- Conducted and analyzed a survey of women cyclists using the Women Cycling in NL FaceBook page and subsequently communicated the results
- Grew the number of followers in the Women Cycling in NL FaceBook page from 140 to 271. The facebook page provides a variety of content addressing issues of advocacy, diversity in cycling, and links to articles and resources that focus on women and girls on bikes
- Started the Zwift NL Facebook page in February 2020 and organized several virtual events for the public. We now have 78 followers and the interest is growing.
- Guest speaker on various podcasts and news programs and gave interviews regarding cycling in NL and road safety initiatives (e.g., CBC Crosstalk, Totally Spoke'd)

- Wrote letters on behalf of BNL to advocate for cycling infrastructure and road safety measures
- Participated in ‘Defeating Car Culture’ meetings and planning with St. John's Social Justice Co-op

There were plans to get more women and girls riding on the trails, but COVID derailed those plans. Hopefully, group rides can begin later this year. Another thing we want to do is offer basic bike repair workshops and road safety clinics for women and girls when it is safe to do so.

Marketing & Communication (Ryan Green, Board Director)

BNL continues to be engaged in several advocacy initiatives at local, provincial, and federal levels including:

- Continued development of the Newfoundland T'Railway for cycling
- Formalization and development of mountain bike infrastructure in Pippy Park and East White Hills in St. John's
- Support for effective cycling infrastructure in St. John's including the Bike St. John's Master Plan
- Support for a National Active Transportation Strategy
- Support for federal E-bike regulation and rebate program

Coaching (John Hancock, Board Director)

The global pandemic had a significant impact on events and opportunities for athletes to gain racing experience throughout 2020. Of particular note was the cancellation of the NL Summer Games, which the Team had been working on as Technical Advisors for the Road, TT and MTB events. Significantly, the planned 2021 Canada Summer Games (CSG) were postponed to 2022 but it was extremely positive for our Athletes, that the age range for the games has been adjusted to ensure athletes who would have been eligible to compete in 2021 will still be able to participate in 2022.

At a Provincial level, our original plan for 2020 was to run a spring training camp as well as a number of competitive events across road and MTB disciplines to enable the Development Team Athletes to gain experience and help develop team camaraderie. Unfortunately, we didn’t get do a lot of these things in person but we tried our best to develop a solid back to sport plan and provide encouragement to the athletes we had previously identified through attending the 2019 Camp and racing.

We also realised that as part of our Long Term Athlete Development (LTAD) Plan we needed to reach more athletes, including younger junior riders who might not participate in the CSG in Niagara, but who would be eligible in 2025 when we host the games in St.

John's. This would enable younger juniors to gain valuable experience learning to train with the older riders.

Therefore, during Summer 2020 we publicised an open call for all interested junior athletes and asked them to return an expression of interest form identifying their 2021 and long-term cycling goals. Within the information we provided as part of this EOI was our overall strategy for the Provincial Development Team (PDT) and how from this pool of athletes we would in due course select Athletes to be part of the Provincial High Performance Team (PHPT). Subject to future performance and final selection criteria it is envisaged that the PHPT Athletes will form the Canada Games Team.

It is reassuring that from this open call we got sufficient committed athletes to fill men's Road and MTB CSG Teams, but we are always on the lookout for additional talent and interested athletes. We're also actively reaching out to female athletes to increase participation and retention in the sport. As it stands we anticipate having a strong female road team with some more recruitment required for MTB. We are also mindful that our remit is to reach out across the entire Province and we're looking at ways to achieve this and ensure that all committed athletes can access coaching advice and training.

During 2020 we also strengthened the coaching and team management with some new volunteer staff so that we can better support the junior athletes with a dedicated team for road and MTB. This approach aligns with other Provinces, Cycling Canada and the CSG technical requirements.

So we now have:

- Andy Poole (MTB Team Manager)
- Ryan Butt (Road Manger)
- Mick Cutler (Road Coach)
- Olivia Smith (Female Coach)
- Daan Goossens (recently joined and is going to assist with LTAD)
- John Hancock (MTB Coach / Director of Coaching)

During 2020, Mick Cutler and John Hancock substantially completed the required NCCP Competition Coaching qualifications with the major outstanding items being the in-person Cycling Canada Portfolio/Camp Assessment (which forms part of our plans for 2021.)

In terms of events, it was very positive that the St. John's Enduro Series was able to take place. Many of the PDT Athletes participated in the series, and placed highly. It is notable that road athletes, such as Roughan Gaetz, did extremely well in some of the online National Race Series.

2021 – Current focus:

We’re currently connecting with the Road and MTB PDT Athletes via Zoom Meetings, Facebook and we’ve just started up group Zwift Rides. Athletes are generally getting in the base endurance miles, building intensity, doing benchmark FTP tests, cross-training and learning to race virtually.

We’re actively encouraging our PDT Athletes to participate in the BNL Zwift Racing League on Wednesdays, which a former NL Canada Games Athlete, Joshua Veber, is organising. What’s apparent is that we have some exceptionally talented junior athletes putting out serious power, and we need to provide with them with all possible opportunities to train, compete and reach their full potential.

We’ve also recently submitted Development Team Athletes for the Premier’s Athletic Excellence Fund, and it will be a boost to the program if they are recognised.

Our Plans:

Our immediate goal is planning a Development Team Training Camp in Corner Brook at the end of May with testing, racing and selection to determine the High Performance Team Athletes who will form the core of the Canada Games Team.

We’re also working with local event organizers to plan and fill the 2021 calendar. The St John’s Enduro Series will definitely take place, health restrictions permitting, and we’re looking to support a Road and MTB Championships at the end of the summer. We’re hoping that MTB Racing can take place at Pippy Park and we can begin to use part of the anticipated 2025 race course. Ideally, we would also like to see our Athletes racing in the other Atlantic Provinces, in events such as the Canada Cup in NB. A key part of the Canada Games Plan is to provide our athletes with opportunities to gain more race experience and exposure to the higher level of competition nationally, in order to adequately prepare for the Games.

As we develop more online training, testing and racing we’re also looking to make sure all of our athletes have access to the tools needed. This includes ensuring Athletes have access to virtual platforms such as Zwift and that we have some key equipment such as smart trainers for testing, as well as for short-term loan purposes to Development Team Athletes who don’t have access to this technology. In addition, the Coaching Team is looking at the costs involved in having a training platform to efficiently deliver individual training plans and accurately monitor athlete progress.

Overall, the Coaching Team is realistic about our starting point, but hugely optimistic about the growth of the sport here, across cycling disciplines, and the opportunities to develop our athletes. Our performance targets include athletes being competitive and gaining high-level racing experience at the Niagara Canada Summer Games in 2022, but clearly as part of our LTAD target we’re looking for a chance to podium at the 2025 GSG in St. John’s.

Western (Angel McCarthy, Event Organizer)

Rough Waters Gravel Grind

This event was hosted by Cycle Solutions in partnership with Rough Waters Brewing Co. in Deer Lake. It was held on Sunday, October 11, 2020, in accordance with local COVID 19 guidelines. There were two distances offered: a 40 km loop in around the back country roads and ATV trails of Deer Lake and a 70 km route travelling through from Deer Lake, Humber Village, Pasadena and returning to Deer Lake via approximately 10 km on the NL T'railway. It rained A LOT. We had a total of 20 participants. 4 individuals registered for the 40 km and 16 registered for the 70 km. The 40 km was a challenging route, with the same amount of elevation in a lesser distance. All finished. Both groups were followed and supported by the Deer Lake Search and Rescue on ATV.

Labrador (Eric Skoglund, Regional Representative)

Due to the Covid-19 Pandemic, all the regularly scheduled cycling events & group rides were cancelled for the duration of the cycling season from June – September, 2020. Personal & family cycling continued with respect to the Pandemic community guidelines in road, MTB, fat bike, gravel bike & BMX. Sales of bicycles at Minipi Outfitters continued in popularity with many people choosing to pursue healthy outdoor activities. The summer season in Labrador was a good one for cycling, notwithstanding the Covid-19 Pandemic, as the weather was frequently warm & sunny (by Labrador standards!). Local cyclists are being encouraged to join BNL in 2021 & we hope to resume some of our normal events or to create virtual events to support community cycling, good health & recreation. One final highlight was a conference call on December 11th, 2020, attended by: Alan Bock & Eric Skoglund (Bike Labrador), Kevin Flynn (BNL President), & Dominic Demers (NL Recreation & Sports Consultant for Labrador, Tel: (709) 896-7251 Email: dominicdemers@gov.nl.ca), to discuss community cycling history & development in Happy Valley-Goose Bay.

Three Pond Barrens (TPB) Groomers Co-Op (Hazen Scarth, Volunteer)

TPB Groomers Co-Op is a sub-committee of BNL. The TPB Groomers Co-Op, previously the Pippy Park Liaison Committee, was established in the winter of 2020 with the aim of trail restoration and grooming. In the winter of 2020, approximately $12,500 was raised; so far this winter over $10,000 has been donated. The Co-Op acquired a Snow dog groomer, modified the groomer, sold two elan snowmobiles, purchased a Bravo, paid operational costs, outfitted a sea can for storage and completed trail work last summer.

In the past year, BNL has effectively and efficiently managed and accounted for the Co-Op's revenue and expenses. In consideration of the number of transactions and the amount of money, the Co-Op is most appreciative of BNL's support.

Promotion of the Co-Op's activities and fundraising has, for the most part, been done on social media. Signage at 12 sites along the trails explains our purpose, relationship to BNL and fundraising.

The combination of great trails and Covid-19 inspired public pursuit of the outdoors, has resulted in extensive use of Three Pond Barrens trails by bikers, snowshoers, skiers and walkers. The response has been very positive. BNL has been an important element in this success.

SUMMARY

Thank you again to everyone who contributed to the work of BNL in the past year. The continued success of the organization is dependent upon the commitment and hard work of many volunteers as well as partners, sponsors, individual donors, coaches, organizers and athletes throughout the province. Without the efforts of these dedicated individuals, the organization would not be able to grow and to operate as successfully as we do.

ANALYSIS OF BNL MEMBERSHIP JANUARY 1 – DECEMBER 31, 2020

BNL Membership Numbers
January 1 - December 31/2020 = 257 (60% decrease from previous year)
January 1 - December 31/2019 = 647

Male Vs. Female
